**Subject:** PLEASE REVIEW BY NOON FRI: Redesigned West Lake web page  
**Importance:** High

Hello all,

The redesigned West Lake page is now ready for **final review** on the R7 web staging server at [http://kodiak.r07.epa.gov/region07/cleanup/west\\_lake\\_landfill/index\\_new1.htm](http://kodiak.r07.epa.gov/region07/cleanup/west_lake_landfill/index_new1.htm). OPA has committed to Karl that this new page should be posted live for public access by COB Friday. Therefore, OPA requests that you **please review the page by noon Friday** so we can meet that goal.

First, a little background... OPA originally briefed Karl, Mark, Cecilia and Bob J. on the initial draft of the page. Their comments were limited to the map (at lower right), which has been significantly improved since then. OPA has also updated the content in the What's New box, and added an Upcoming Meetings box at middle left, since the original briefing. (The four links under the What's New box still go to corresponding headings on the Documents Archive page.)

The revised map is an interactive geo-platform map with clickable external/internal boundaries that bring up info boxes (see Details). Clicking on View Larger Map opens up the full-size map page. This map was created by GIS staff through exhaustive examination of most recent available data, with assistance from SUPR and other sources.

With the changes since the original briefing in mind, **please reply by noon Friday if you have critical, substantive comments that indicate factual errors** (e.g., "show stoppers"). We will address any critical comments before the page is posted live. *However, if no such comments are received, the new page will be posted live on Friday afternoon as planned.*

Thanks for your timely input!  
Martin
